Tenure-Track Assistant/Associate Professor Faculty Position

The Catholic University of America invites applications for a Tenure-Track Assistant/Associate Professor faculty position in the Department of Civil Engineering beginning on August 20, 2015. The department seeks candidates in transportation engineering, infrastructure sustainability, operations research and systems engineering. Candidates with background in information technology, such as geographical information system, building information system and sensor network are particularly encouraged to apply. Applicants must have earned doctorate (or all but dissertation) and undergraduate degrees in civil engineering or a related engineering or science field by the time of appointment. Duties include teaching undergraduate and graduate courses, developing a sustainable, externally funded research program, and servicing to the university, the profession and the community. Applicants should either possess professional engineer registration or have the ability to obtain professional licensure. Information about the Department of Civil Engineering, The Catholic University of America, Washington, DC 20064 may be found at http://civil.cua.edu/.

Review of applicants will begin on January 1, 2015 and continue until the position is filled. To apply, go to http://engineering.cua.edu/facultyapp/civil/
